

**State of Connecticut  
Connecticut Siting Council**

In re:

Petition No. 809

Petition of Extenet Systems, Inc. for a Declaratory  
Ruling on the Need to Obtain Connecticut Siting  
Council Approval to Develop a Distributed Antenna  
System in Lower Fairfield County, Connecticut

May 17, 2007

**REQUEST TO INTERVENE**

Omnipoint Communications, Inc. ("Omnipoint"), a subsidiary of T-Mobile USA, Inc. ("T-Mobile") requests permission pursuant to Conn. Gen. Stat. §16-50n and related Regulations of Connecticut State Agencies §16-50i-15a, to participate as an intervenor in Petition No. 809 (the "Petition"), identified above.

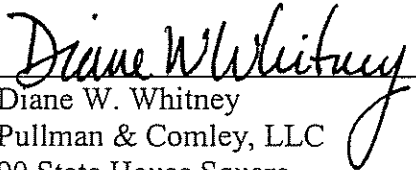

In support of this request, Omnipoint states that it is a personal communication provider licensed by the Federal Communication Commission ("FCC") to provide communications services in Connecticut. The Petition submitted by Extenet Systems, Inc. ("Extenet") is to establish a distributed antenna system ("DAS") along a 20-mile portion of the Merritt Parkway between the New York State line and Westport, Connecticut. The proposed Extenet DAS system is to consist of a series of DAS nodes along the Merritt Parkway and two additional base hubs not yet located.

Extenet's goal is to develop an infrastructure which could be used by T-Mobile and other licensed service providers. Extenet, itself, is not a provider of wireless communications services. T-Mobile, as a potential user and as one with an interest in communication services in the area in question, has an interest in this proceeding and asks to be allowed to participate in it.

T-Mobile has been granted intervenor status in other matters before the Siting Council,  
and asks to be granted such status in this proceeding so it may fully participate in it.

Respectfully submitted,

OMNIPOINT COMMUNICATIONS, INC.  
a subsidiary of T-Mobile USA, Inc.
